Experience

Software Engineering Analyst – Accenture, *December 2016 – Current*

- Continued testing Integration Components
- Served as the lead tester for an integration component that was critical to the client.

Software Engineering Associate – Accenture, *January 2016 – December 2016*

- Created Test Conditions and Test Scripts to match the client's requirements.
- Executed Application and Integration Test Scripts
- Tested Integration components using SQL Server and SSIS with Push and Pull data services.

Virtual Campus Tour – UTM Senior Project *August 2015 – November 2015*

- Created virtual representation of The University of Tennessee at Martin campus using technologies like the Unity Engine and C#. Received 2nd place at the 2015 ACM Mid-South-East conference held in Gatlinburg TN.

Education

Java Bootcamp:

Participated in four-week Java Bootcamp provided by Accenture where I created a product to meet the client's expectations. Gained skill working in a team and became more familiar with different methods of source control as well as unit testing and the Eclipse IDE.

University of Tennessee at Martin (Martin, TN)

Bachelor of Science, Computer Science - Fall 2015
